The Unified AI Industry Board

Building the Ethical Infrastructure for the Automated Economy.

A DIVISION OF THE NATIONAL AI PROMPT CHAMPIONSHIP

We have passed the phase of "AI Experimentation." We are now in the phase of "AI Infrastructure."

In 2026, the divide between organizations that have integrated AI into their workforce and those that view it as a novelty will become insurmountable. The Unified AI Industry Board was created to ensure that this transition is led by ethical, forward-thinking, and powerful voices in our key metropolitan hubs.

◎ The Proposition

We are selecting 5 organizations per city to serve as the "Founding City Partners." This is an active governance seat that grants:

- ✓ First-Look Access to Top 1% AI Talent
- ✓ Enterprise-Grade Workforce Training
- ✓ A Seat at the National Policy Table

Three Pillars of Membership

1. Talent Acquisition

THE PIPELINE

Problem: Traditional hiring is broken. Resumes can't prove prompt engineering skills.

Advantage: Bypass recruiters. Access GitHub repos and competition logs of "Architect" track winners. You hold "First Right of Refusal" for interviews.

2. Workforce Resilience

THE DEFENSE

Problem: Employees are using AI secretly and insecurely (Shadow AI).

Advantage: Includes 100-seat Enterprise License for "Applied AI Foundations." We train on privacy, prompt injection, and automation.

3. Strategic Governance

THE OFFENSE

Problem: Standards are being written without your input.

Advantage: You sit on the committee defining the "Standard of Excellence." The competition challenges solve *your* business problems.

The Operational Protocol

We understand executive time scarcity. The Board is designed with a "Delegate System" to ensure value capture without CEO bottleneck.

The Principal (You)
Holds the title, the recognition, and attends the Annual In-Person Summit.

The Delegate (CoS / VP)
Manages execution, assigns training licenses, and attends quarterly briefs.

2026 Calendar

○ **Q1 (Virtual): The Workforce Audit**
Reviewing internal AI readiness & risks.

○ **Q2 (Virtual): The Academic Summit**
Voting on safety protocols with Fellows.

◉ **Q3 (In-Person): The City Summit**
Aligning with government & peer leaders.

○ **Q4 (Virtual): The Impact Report**
Reviewing the 10,000 certified milestone.

Board Composition

1. Industry Partners
CAPITAL & EXECUTION

CEOs, Founders, and Presidents of high-growth companies.

REPRESENTATIVE:
You / Your Organization

2. Academic Fellows
RIGOR & ETHICS

Deans of CS and AI Researchers ensuring technical soundness.

REPRESENTATIVE:
David Cochran (Newman University)

3. Civic Trustees
GROWTH & POLICY

Leaders of Economic Development Councils aligned with city growth.

REPRESENTATIVE:
Andrew Nave (GWP)

The Financial Case (ROI)

DELIVERABLE ITEM	EST. MARKET VALUE	NOTES
Enterprise Training License	$25,000	Based on $250/user for 100 seats
Recruitment Retainer	$15,000	Avg. placement fee for specialized AI engineer
National Media/PR Package	$10,000	Spotlight feature, press release, backlinks
R&D Innovation Briefs	$5,000	Quarterly reports on emerging tools
TOTAL VALUE	**$55,000**	
YOUR INVESTMENT	**$20,000**	*Tax Deductible (Training & Dev)*

The Selection Process

01
Submit Inquiry
Complete the digital application at aipromptchamp.com/board

02
The Vetting
15-minute interview with National Committee to ensure "AI For Good" alignment.

03
Induction
Delegate onboarding materials sent within 48 hours of dues remittance.

Ramsey Jamoul
CEO, Unified
